DealPilot for Orbyte

AI WhatsApp Sales Copilot & Deal Pipeline CRM for Malaysian SMEs

Less busywork. More closed deals.

Team bug+work=feature

Domain 2 – Orbyte Smart SME Challenge | SDG 8 – Decent Work & Economic Growth

DealPilot

Every WhatsApp sale is still done by hand

Salesperson checks Excel → calculator → types reply → re-enters it in Excel at night

Slow, wrong quotes

Prices and totals worked out manually

Forgotten follow-ups

Quotes go cold, customers buy elsewhere

Margin leakage

Ad-hoc discounts the owner sees only at month end

Double entry

Chats re-typed for the bookkeeper and LHDN e-Invoice

A big problem for the backbone of Malaysia

48.5%

of Malaysian workers are employed by MSMEs

97.7%

of Malaysian internet users use WhatsApp

42 hours

average time to answer a sales lead; 23% are never answered

Replying within 1 hour makes a lead ~7× more likely to convert

DealPilot

Meet DealPilot

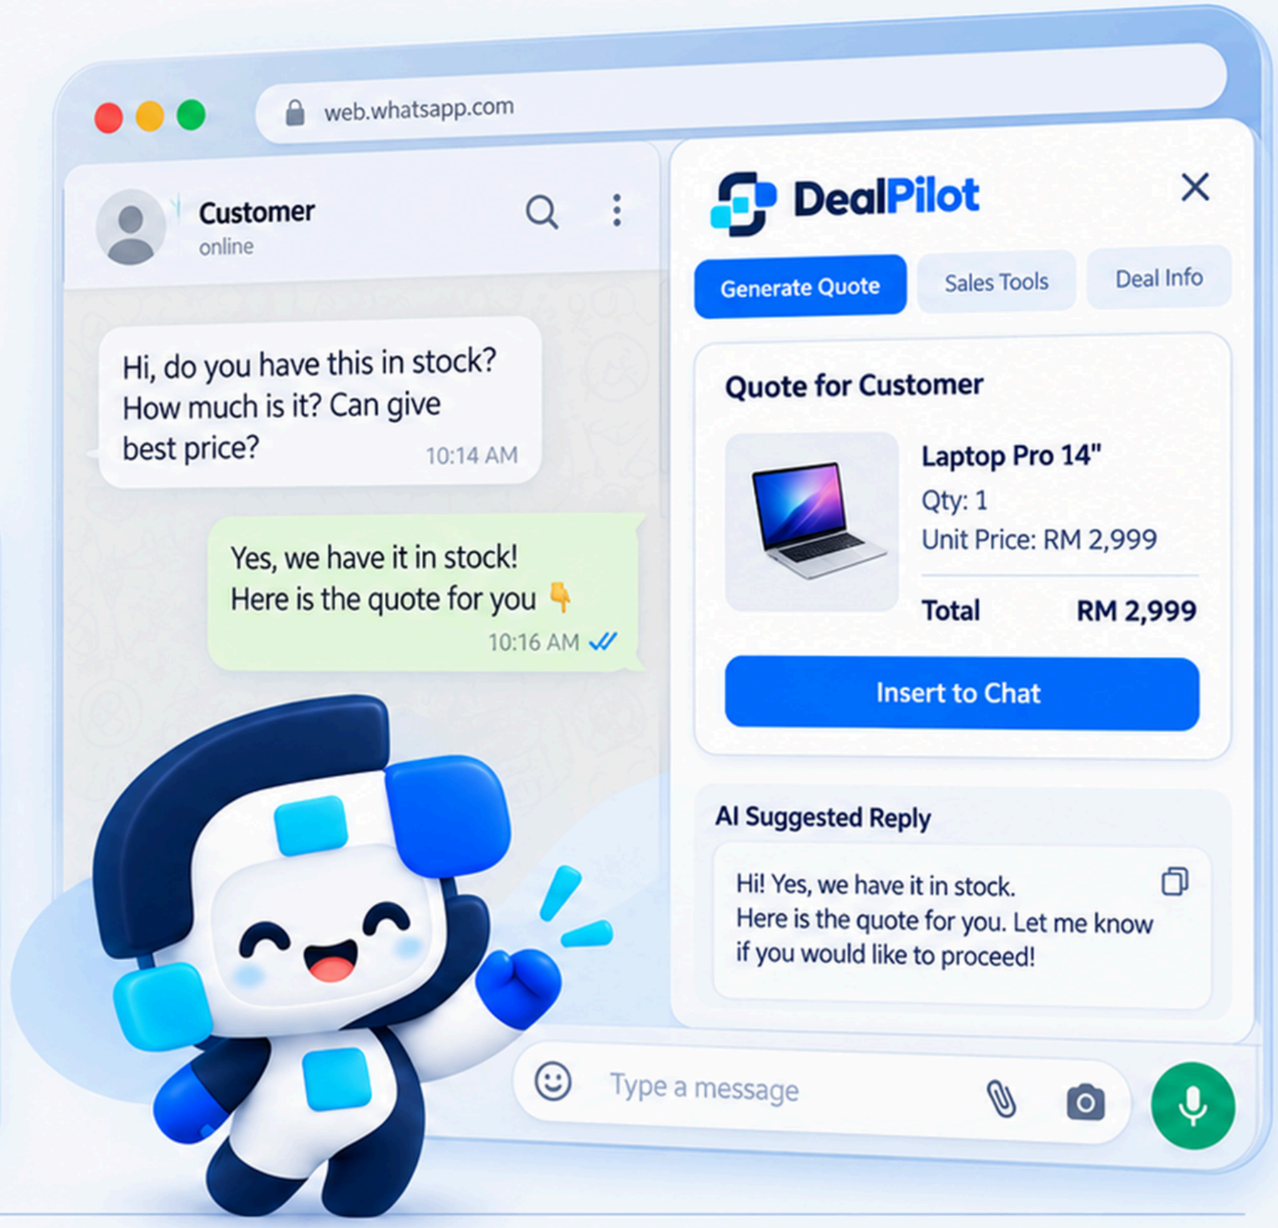
An AI sales copilot inside WhatsApp Web + a dashboard that turns every chat into a tracked deal.

In WhatsApp Web (Chrome extension):

- Reads the customer's chat (English, Malay, Manglish)
- Quotes from YOUR price list
- Writes the reply – the salesperson presses Send

In the Dashboard:

- Deal pipeline & follow-up reminders
- Owner approvals, commission, exports



DealPilot

From chat to closed deal in 5 steps

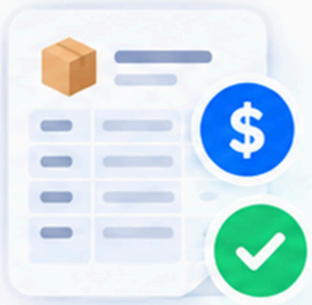
1 Customer messages

Got 1.5HP?
How much?
10:24 AM

2 AI reads

intent, products, quantities

3 Code prices it



from the price list, margin checked

4 Rep sends

reply inserted in 1 click, human decides

5 Deal tracked

- Inquiry
- Quoted
- Follow-up
- Payment
- Won/Lost

DealPilot never sends a message by itself.

Built for frontline SME sales teams

Smart quotes

Priced from your own catalogue, no guessing

Follow-up timers

2-hour / 48-hour reminders, loss reasons recorded

Owner approvals

Discounts below the margin floor need the owner

Commission & roles

Owner / Staff access, leaderboard, audit log

1-click exports

Quotation PDF, won-order CSV, Excel with LHDN TIN/SSM

60-second onboarding

Industry presets + built-in WhatsApp simulator

DealPilot

AI writes words. Code does the maths.

AI does
(Qwen3-VL-8B on RunPod)

- Understands messy Manglish & Malay
- Finds products and quantities, reads order/receipt photos
- Drafts friendly reply options

Code does
(deterministic Python)

- Prices, totals, discounts, commission
- Checks every amount in the AI draft
- Blocks discounts below the margin floor

Human in the loop
– the salesperson reviews and sends every message.

DealPilot

How it is built

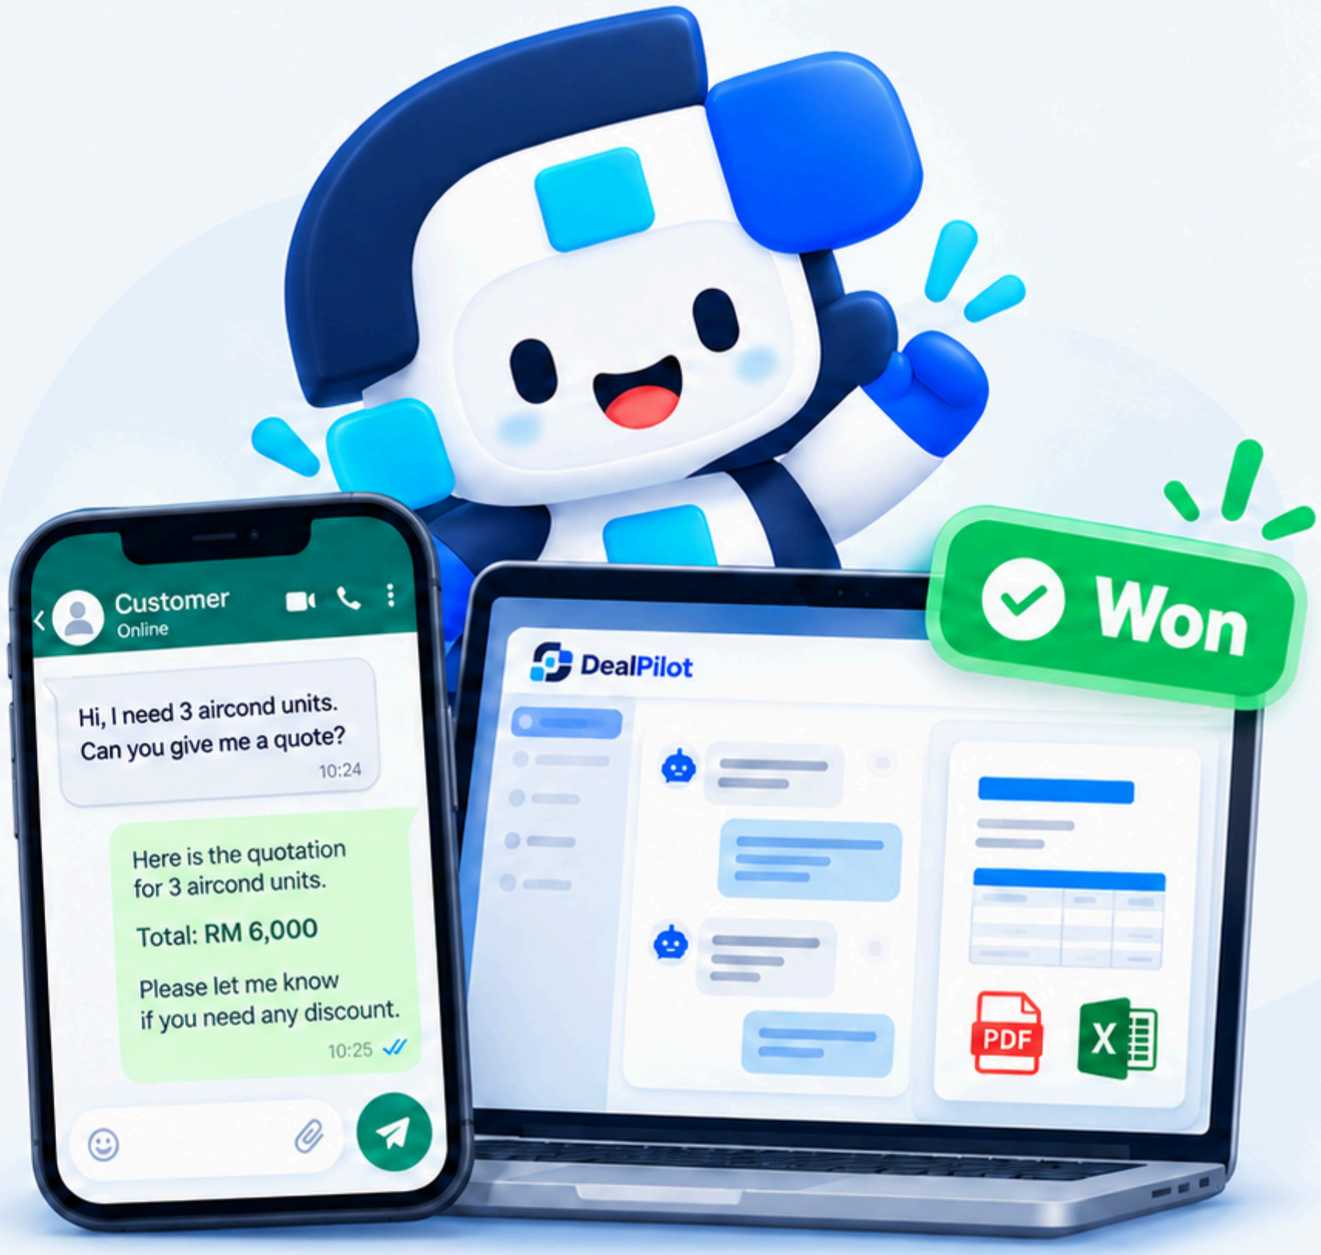
DealPilot

Live Demo

1. Customer asks for 3 aircond units on WhatsApp
2. DealPilot quotes from the price list and drafts the reply
3. Customer asks for a discount → rep negotiates a fair price
4. Follow-up reminder fires on a quiet quote
5. Deal won → quotation PDF + Excel export



DealPilot

How we got here

Empathise

SMEs sell on WhatsApp with Excel and a calculator

Define

Quote right and follow up on time – without leaving WhatsApp

Ideate

Pivot from a cash-and-stock tool to a sales copilot

Prototype

Chrome extension (no Meta API approval needed) + one-page dashboard

Test

272 automated tests, Manglish/ Malay demo chats, 3 industry presets

Mentor feedback:
“Accountants resist tools that touch their books”
→ we hand them one clean export instead.

Business model (proposed)

DealPilot

Target: 3–20 person Malaysian SMEs selling on WhatsApp (contractors, hardware, wholesale, F&B)

Free (inside Orbyte)

- Dashboard
- pipeline
- manual quotes
- 30 AI chat scans / month

Most popular

DealPilot Pro

- Unlimited AI scans
- photo/receipt reading
- follow-up automation
- LHDN-ready exports

Fits into Orbyte as the **Sales module** – reuses its roles and activity log.
